

## Thank you for participating in PMXPO 2017!

### PDU Information

**If you are a PMI credential holder and have linked your PMI.org and ProjectManagement.com accounts, the professional development units (PDUs) for all sessions viewed during the event will be reported on your behalf by PMI. Please allow up to 4 weeks for the PDUs to be uploaded to your transcript. PDUs earned may not all appear on your transcript at the same time.**

*NOTE: You must watch videos in their entirety for our system to record your viewing activity accurately. PDUs will be reported individually for each session attended. You will receive notification for each PDU reported on your behalf.*

**On-demand viewing:** PDUs will be reported for PMI credential holders who view the sessions on-demand. This event will be open for on-demand viewing through the conference platform for 90 days after the live event (27 July 2017). We invite you to login at any time to view recorded sessions. All sessions will be posted on ProjectManagement.com following the 90 day on-demand period.

Our online event will keep track of the sessions you attend and how long you spend in each session. PDUs will be reflected in your ProjectManagement.com account following the event. Please note that there will be a slight delay in posting PDUs to your ProjectManagement.com account.
